- **NODEJS**

INTERESTS

- **Coding**
- **Badminton**
- **Cricket**

PROFILE

A highly disciplined and hard working individual looking for an opportunities to work in an organisation to improve my skill and knowledge for growth along with organisation objective

PERSONAL PROJECT

E-BOOK WEB APP

- It is a E-Book where each user can put their product for selling and buyers can buy their product by placing orders.
- Made this project during my NodeJs learning phase. I worked on MVC pattern, ejs, expressjs, validation, session authentication, MongoDB, mongoose, mail using sendgrid, etc.

Git hub Link :- https://github.com/kau136/eshop

SOCIAL MEDIA BACKEND

- This is a social media like platform where we can upload a post similarly like instagram with authentication.
- Use socket.io to keep it a real time web app.
